SUD Services

ICBHS provides outpatient and intensive outpatient treatment services for adults (ages 18+) including pregnant and parenting women who have a substance use disorder. Services are based on the individuals needs and assessment.

On-site services include:

Assessment

Consists of activities to evaluate or monitor the behavioral health status to determine appropriate level of care and course of treatment.

Counseling

Individual Counseling: Consists of one on one sessions with therapists or counselors.

Group Counseling: Group counseling focuses on the needs of the the participants. Groups can range from 2-12 participants and are available in both English and Spanish.

Family Therapy

Therapy and counseling sessions are extended to include the client and his or her family members and other support systems.

Medication for Addiction Treatment

Ordering, prescribing, administering, and monitoring of FDA approved medications to treat Alcohol Use Disorder (AUD), Opioid Use Disorder (OUD), and any Substance Use Disorders (SUDs).

Care Coordination

Consists of activities to provide coordination of SUD, mental health, and medical care. Support people in care with linkages to services and supports designed to restore their best possible functional level.

Patient Education

Education on substance use treatment, recovery, and associated health risks.

Recovery Services

Services designed to support recovery, prevent relapse, and to restore their best possible functional level. Internal and community resources are provided to support ongoing self-management.

Medication Services

Includes prescription or administration of medication related to substance use disorder services, or the assessment of the side effects or results of the medication.

SUD Crisis Intervention Services

Focuses on alleviating the crisis problem and stabilizing the immediate situation. Service is provided in the least intensive level of care.

Withdrawal Management

Assist with managing mild to moderate withdrawal symptoms in a safe outpatient setting.

Alcohol and Other Drug
Certification # 130005AN

Expiration date: 11/31/2024

Certified by the State Department of
Health Care Services

Additional Services

Narcotic Treatment Program

Treatment for opiate addiction to prevent opiate withdrawal, block the effects of opioid use, and decreases opiate craving.

Residential Treatment Services

24-hour treatment and short-term services for substance use at a residential facility. Withdrawal Management Services are provided to assist with intensive withdrawal symptoms when medically necessary.

Recovery Residences

Offer supportive and stable housing in a group setting for people who are overcoming a substance use disorder.
